**THE 13½ INCH POWER STROKE TRIPLE  
DISC TORQUE CONVERTER**

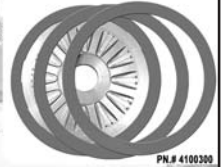

-Built By-  
**Performance Torque Converters**

**1-800-949-6002**

This converter eliminates the failures one sees with re-worked stock type converters.

The secret behind this converter is its size. With three clutch surfaces, this converter dominates over any 13-inch single disc torque converter on the market today.

With the combination of a Radial Pull Stator, a Triple Disc Lock-up Clutch, and the increased converter diameter, this is the converter that performance Power Stroke owners have been waiting for!
